

SHEEJA PS

ERP / OpenERP Developer

Career Objective

ERP Developer with 4 years of hands-on experience in OpenERP 7, specializing in Python-based backend development, ORM, SQL, workflow automation, access rights, module customization, and reporting. Experienced in developing and customizing ERP solutions, troubleshooting backend issues, and supporting business users. Currently expanding knowledge of modern Odoo versions through structured learning and hands-on demo projects, with a focus on Odoo ORM, XML views, QWeb reporting, and module development.

Work Experience

Vidya Academy of Science And Technology, Thalakkottukara

Junior Software Developer

March 2023 - Present

- Developed and customized **OpenERP 7 modules** based on institutional business requirements.
- Built backend business logic using **Python and OpenERP ORM**.
- Developed SQL queries for data retrieval, reporting, and business analysis.
- Configured **user access rights, security rules, workflows, and approval processes**.
- Created customized reports and interfaces using **XML & RML**.
- Debugged and resolved Python, ORM, SQL, XML, and reporting-related issues.
- Supported testing, deployment, user training, and functional teams.
- Worked with ERP modules related to **admission, academics, administration, HR, and other institutional processes**.
- Currently learning modern **Odoo 16/17/18 concepts** through hands-on tutorials and demo projects.
